PRIOVINO
BECAUSE TASTE MATTERS

PRIOVINO
BECAUSE TASTE MATTERS

The PrioVino Premier is so easy to use

Set-up and operation

1. Open the lid by pressing on the first 'O' in the company logo on the cooler lid.
2. Insert the battery (A) – the blue LED in the on/off button lights up.
3. For mains power supply, the power cord can be plugged into a socket on the underside of the cooler. The battery needs to be inside the device and is automatically recharged.
4. Switch on the device using the on/off button (B) – blue digital temperature display lights up.
5. Press the set button (C) – the display begins to flash.
6. Use the plus (D)/minus (E) buttons to enter the desired temperature.
7. Press set button (C) once again to confirm the temperature setting – the display stops flashing.
8. Press the push-up pin (F) downwards.
9. Replace the cooler lid.
10. Place the wine bottle in the bottle chamber.

Recharging the battery

1. When the battery is down to ca. 25% of full capacity, a blue LED lights up behind the air vents.
2. Open the lid by pressing the first 'O' in the company logo on the cooler lid.
3. Press down lightly on the battery for it to be ejected.
4. Insert the charger plug of the battery charger into the battery and connect the battery charger to an electrical outlet.
5. The upper LED will begin to flash in green once charging is completed.

Cleaning

Clean the device with a soft, damp cloth and then dry all surfaces thoroughly.
